Vol. II No. 1

Greenfield Community College

September, 1971

This aerial view of the new \$14,000,000 campus shows where the new building will be located in reference to familiar landmarks. How many can you pick out?
—Recorder Photo by Blake.

Agenda

It takes more fuel to get a jet off the ground than it does to fly it through the air. Likewise it takes more meetings to get the College year off the ground than to keep things rolling through the course of the semester. To get things rolling, here is the Agenda as compiled by Brian Gilmore, Director of Student Activities:

—Sept. 13: Film at the Downtown Campus. "Bullitt" starring Steve McQueen. Admission 55 cents. Time 7:30.

—Sept. 14: Soccer meeting. Candidates interested in playing varsity soccer should meet in Main 105 at 11 a.m. Candidates unable to make the meeting should check in at the Student Activities Office.

—Sept. 18: Annual Fall Picnic, sponsored by the Student Government at the Greenfield Municipal Swimming Pool from 2 to 5 p.m. Steak and salad and corn. GCC ID required. In case of rain the picnic will be held on Sept. 19, same time and place.

—Sept. 19: Alfred Hitchcock Film Festival at Downtown

(Continued On Page Four)

New Campus Finally Underway

The new campus is under construction—finally.

The contractor is Daniel O'Connell's Sons, Inc. of Holyoke whose low bid for the project was \$11.9 million.

Site excavation is now in progress on the 80 acre location in Greenfield Meadows. Unsuitable material is being removed from the site and is being replaced with gravel and reconditioned materials. Osley Construction Co., Inc. of West Hatfield is the sub-contractor doing the site work. Other sub-contractors now at work are: Grodsky Co., Inc., plumbing contractors, is laying sanitary pipe; Johnson Electric Co., Inc. is installing temporary wiring. Temporary field offices are being erected on the site.

According to Bill Fitz Maurice of West Springfield, assistant superintendent for the O'Connell firm, about 40 men are now at work on the project. Following the completion of site work, concrete footings will be poured, Fitz Maurice said.

The new campus will be one building. According to Robert F. Mahar, President of Daniel O'Connell's Sons, Inc., it will take 13,000 cubic yards of

concrete, 2,000 tons of structural steel, and 980,000 bricks to complete the new building.

Based in Holyoke, the O'Connell firm was founded in 1879 by Daniel O'Connell, an immigrant who came to this country and got a job in construction and then went into business for himself. The firm still occupies the original O'Connell building, first used as a stable for the horses which pulled the dump carts and now used as the firm's executive offices.

Daniel J. O'Connell, the grandson of the founder, is now chairman of the board.

According to Mahar, work will begin as soon as word is received from state officials. The contract was formally signed on Tuesday, July 6 in Boston. About 200 men will be employed, many of them by sub-contractors. Most of these will be from the Connecticut Valley area, Mahar said.

The first work done was the laying of the building on the ground by surveyors, clearing and grubbing of the site. Excavating and filling are now in progress.

The superintendent for the

contractor is Norman Mathison, a professional civil engineer. The state has appointed John Ward as clerk of the works. Associate architect for the job is Hugh Stubbins of Cambridge, who is giving on-site supervision and acting as liaison between the contractor and the architectural firm of Ernest J. Kump which is based in California.

The new campus, which has 225,000 square feet of floor space under one roof, is of a routine type of construction, Mahar said. There will be some difficult reaches for the cranes to get material inside the building and the excavation and backfilling of the side hill site could pose some minor problems, but there is nothing out of the ordinary in the structure of the building, according to Mahar.

Daniel J. O'Connell's Sons, Inc. is no stranger to Franklin County. They were the contractors for the new wing of the Franklin County Public Hospital, the new Greenfield Recorder building and for several sections of I-91 in and

around Greenfield. Currently they are at work on the following buildings:

The Route 10 bridge over the Connecticut River; Village Park Housing for the Amherst Interfaith Housing Association, the 1970 Dorms at the University of Massachusetts and the thirty story Bay State West Building in Springfield, both in collaboration with Aberthaw Construction Co., Inc. of Boston; the Graduate Research Center at the University of Massachusetts, in collaboration with the Granger Construction Co., Inc.; the twenty-eight story Library at the University of Massachusetts; the Civic Center for the City of Springfield; the Western Massachusetts Geriatrics Center in Longmeadow; the Library at Hamilton College in Clinton, N.Y.; an addition to Wesson Hospital in Springfield; an addition to Nobel Hospital in Westfield; peripheral buildings for the Atomic Plant in Wiscasset, Maine; a section of the reconstruction of Route 5 in Holyoke and a Home for the Elderly for the Springfield Diocese in Holyoke.

Student Government Election Procedures And Information

The new Student Government Constitution will be used this year for Student Government elections. The Constitution was passed by the Student Government at the end of the last school year, and was accepted by President Turner over the summer.

The Constitution provides for representatives to be elected from a program or combination of programs of study. The number of Student Government representatives in a program is based on the number of students enrolled in that particular program or combination. A total of 25 representatives will make up this year's Student Government.

| | No. of Students 1971 | No. of Reps. |
|---|-------------------------|--------------|
| Liberal Arts | 543 | 11 |
| Business Administration | 111 | 2 |
| Secretarial | 83 | 2 |
| Civil Tech., Comp. Tech. and Environmental Science | 79 | 2 |
| Nursing | 100 | 2 |
| Recreation | 69 | 1 |
| Mental Health | 53 | 1 |
| Art and Media Tech. | 145 | 3 |
| Law Enforcement | 20 | 1 |
| | 1236 | 25 |

The Student Government representatives will elect their own Secretary and Treasurer from the representatives of the Student Government. The President and Vice-President will be elected by popular vote of the entire student body.

Nomination forms are available in the Student Activities office in the West Building. Brian Gilmore, Advisor to the Student Government and also Director of Student Activities will be glad to help answer any questions which students have regarding election procedures and information.

Election procedures are as follows:

1. For the office of President and Vice-President, nomination papers must be secured with 10% (120) signatures of Freshmen or Sophomores in order for the candidate's name to appear on the election ballot.

2. For Student Representative, nomination papers must be secured with signatures of 10% of the students, Freshmen or Sophomores, enrolled in the program or combination or 30 signatures, whichever is larger in order for that candidate's name to appear on the election ballot.

Nomination papers will be available on September 13 from the Student Activities office and will be due on Friday, September 24 at 4:00 p.m. These nomination papers should be returned to the Student Activities office

on that date. As soon as the signatures are checked out and nomination papers are received, campaign posters may be posted. Each candidate may have five campaign posters only. Supplies for making posters are available in the Student Activities office.

The elections will take place on Tuesday, October 5 in the West and Main Buildings between the hours of 9:00 a.m. and 4:00 p.m. Students who wish to vote must present a valid ID card in order to vote.

Revised Text Of New Constitution

Constitution of the Student Government, Greenfield Community College, Revised Spring 1971.

Article I — Name

The name of this organization shall be the Student Government of G.C.C.

Article II — Purposes

The purposes of this organization shall be:

A. To encourage and promote interest and participation among and between the students of G.C.C. and,

B. To develop and maintain a spirit of cooperation within the College community, i.e. between the faculty and the student body and among the students and

C. To provide for the general welfare of the student body.

Article III — Organization

Section I — Executive Board

The Executive Board shall consist of the President, Vice-President, Secretary, Treasurer and Representative to the Student Advisory Commission to the Mass. Board of Regional Community Colleges.

Section II — Election of Executive Board

A. The President and Vice-President of the Student Government will be elected by the entire student body. Nomination papers will require signatures of 10 per cent of the student body, and elections will take place 30 days after the start of classes in the fall semester. The President and Vice-President will also be subject to all rules in the Constitution.

B. Secretary and Treasurer shall be elected by and from the membership of Student Government within the first 30 days of the fall semester of each academic year.

C. The Representative to the Student Advisory Commission to the Mass. Board of Regional Community Colleges shall be elected on March 15 of the preceding academic year.

Section III — Representatives

A. Total day division fall semester enrollment divided by 25 to determine the number of students to be represented by each representative (example: 1,200 students divide by 25 equals one representative per 48 students).

B. The students in each program of study, or combination of programs, shall elect from their members one representative enrolled in that program, or combination of programs, for every number of students as determined using the procedure outlined under part A of this Article. This election shall take place within the first 20 class days of the fall semester of each academic year.

C. Vacancies which occur in the representative body during the academic year shall be filled by and from the students enrolled in the major program of study, or combination of programs, involved by election within the program.

D. Vacancies which occur in the Executive Board during the academic year shall be filled by election by and from the membership of Student Government.

E. Summer Interim. Student Government will appoint three students who will be in the Greenfield area during the summer who will handle Student Government business from May 15 till October elections.

Section IV — Advisor

The President of the College shall appoint an advisor to the Student Government. Additional faculty may be

selected by the Student Government.

Article IV — Duties of Officers

Section I — President — shall call and preside over all meetings of the Student Government, shall make all necessary appointments with the approval of two-thirds of the Student Government.

Section II — Vice-President — shall, in the absence of the President, preside over meetings of the Student Government; shall represent the Student Government on the College Programs Committee.

Section III — Secretary — shall keep accurate minutes of all meetings of the Student Government and post the minutes in designated places within forty-eight hours of the completion of each meeting; shall be responsible for Student Government correspondence.

Section IV — Treasurer — shall act as chairman of the Finance Committee of the Student Government and make recommendations for budget allotments to the several organizations and activities; shall make a report of financial condition of the Student Activity Fund within seven days of the beginning of each month that the College is in session.

Section V — Student Commissioner — shall represent the students of Greenfield Community College at the Mass. Board of Regional Community Colleges Advisory meetings and keep Student Government informed of their actions.

Article V — Student Government Meetings

Section I — Regular meetings of the Student Government shall be held at least once per month during the months of October through May inclusive. Date and times of following month's meeting must be set at the end of each meeting.

Section II — Special meetings shall be called at the discretion of the President or upon the written request of seven members of the Student Government, within 24 hours of such meeting with the agenda posted.

Section III — 50 per cent plus 1 of membership shall constitute a quorum.

Section IV — The Secretary of Student Government will notify the program of study which a representative represents after he has two unexcused absences. The agenda for regular meetings must be posted 48 hours before that meeting is held.

Article VI — Parliamentary Authority

The rules of parliamentary practice contained in Robert's Rules of Order Revised shall govern the Student Government in all cases to which they are applicable, and in which they are not inconsistent with the Constitution or Rules of Order of the Student Government.

Article VII — Standing Committees

Section I — Finance Committee

A. Shall consist of five members to include the Treasurer, who shall serve as chairman.

B. Shall prepare a proposed budget for the academic year for presentation to the second regular meeting in October of each year, and shall make recommendations on financial matters as appropriate.

C. Shall present a Statement of Current Financial Condition of the Student Activity Fund at each regular Student Government meeting.

Section II — Activities Committee

A. Shall consist of five members of the Student Government, to include the Vice-President, and any member of the student body who volunteers to serve.

B. The Committee shall elect a chairman from its own membership.

C. The function of this Committee shall be to coordinate the activities of all student organizations; plan and schedule programs of a general nature for the student body as a whole and maintain liaison with the College Programs Committee.

Article VIII — Amendments

Section I — This Constitution may be amended following the approval of three-fourths of those present and voting at a meeting of the Student Government, provided that the proposed amendment shall have been introduced or notification of the nature of an amendment to be introduced shall have been given, at the preceding meeting or at the meeting before the preceding meeting.

Constitution To Bring New Interest

Student interest and representation, has been a concern of the administration of GCC during its nine years of existence.

The Student Government has been set up in order to help fulfill this need for active participation in college affairs. One of its main purposes is to manage the funds obtained from Student Activities fees and furnish a representative group from the entire student body.

Like many other things, it became apparent that it needed a little renovation work in order to function properly. Problems, such as decreasing interest in Student Government, became apparent to the entire student body when a mere 125 showed up at the polls. And many questioned the legality of the 125 votes for a number of reasons. Students complained because they claimed a small group of students seemed to be running the decision making and therefore were not being represented correctly.

Out of these incidents came a committee of students assisted by Dean Keir and Brian Gilmore to work out the bugs and set up a constitution that was satisfactory and workable.

After many long hours of work and reexamination, a new constitution was formed and approved. This constitution provides that every curriculum be represented on a ratio of one representative for every fifty students. On this basis students will be elected from and by the members of that curriculum and not by the entire student body as has been done in the past.

Since this was set up so everyone in the school will have a equal chance to run in the election, regardless of his class or interest, it is also hoped that since the representative will be in close contact with those, whom he represents, he will be able to represent his peers more efficiently and accurately than in governments of the past.

Bike riding is the source of one million injuries annually, including 120,000 fractures, 60,000 concussions, and 800 deaths.

Civ. Tech. Graduates Get Good Jobs

Can a person with only a degree from a two year college get a good job in a technical field?

If the experience of two Greenfield Community College graduates is any index, they can. Ken Black, '69, and Dave Stone, '70, are both working as civil engineering aides — Black for the Town of Greenfield and Stone for the National Forest Service. Both men hold Associate in Science degrees from Greenfield Community College.

Under the supervision of Greenfield DPW superintendent Bill Allen, Black has been working out solutions to many of Greenfield's engineering problems, especially those dealing with drainage and sewage. He has designed drainage systems for Silver St., Overland Rd., Woodard Rd., and the Town Hall. He has also been working in cooperation with the engineering firm of Metcalf and Eddy on a project which will separate the storm sewers from the sanitary sewers, and he has been involved in the designing of roads and sidewalks.

In addition to designing and supervising engineering projects, Black sometimes helps to operate the Greenfield sewage plant, making the necessary lab tests and maintaining the pumping operation.

Stone is working at the Green Mountain National Forest. An honors graduate, Stone is a temporary summer employee of the National Park Service and plans to enter the University of Massachusetts in September. Although most of his work this summer is in surveying, he has been helping to supervise a gravel contract and has also been developing a contour map from aerial photographs that will be used in designing new roads within the national forest.

Commenting on the adequacy of Black's civil engineering technology training at Greenfield Community College, Allen says, "Ken may be above average, but I'm very satisfied with his work. He has had enough basic training so that he can fulfill assignments and work out solutions to many

engineering problems, especially those dealing with drainage and sewage.

Mike Pezzetti, who has charge of civil engineering in 110,000 acres of the Green Mountain National Forest in Vermont, also expressed satisfaction with the training afforded by the two year civil engineering technology program at Greenfield Community College. Speaking of Stone, he said, "I had him work on a job preparing some plans for me two weeks ago. I just gave him the computer sheets explaining what it was, and this told him the scale and what technique we had. Then I let him go. I felt he did a very good job. There were some station equations involved in it, which usually in school you never hear about. He seemed to be able to handle them pretty well. I was very pleased with the quality of the drafting work. I thought it was a very good job."

"He seems to have a good head on his shoulders and some common sense, and he is able to take something and with minimum instruction go ahead and do it. This is the type of person the Forest Service is looking for because we don't have too many people."

According to both Allen and Pezzetti, there are many career opportunities for the two year graduate of a community college in civil engineering technology. Pezzetti says, "we have what we call engineering technicians and surveying technicians. I have one of these technicians as my assistant. I can go out and locate a road and then he is in charge. He does all the surveying for me. He will go out and do construction inspection. I would say that anyone in this area has a good career opportunity."

Allen says, "A lot of kids can absorb a certain amount of theoretical stuff and then need practical experience. Not everyone needs to go to college four or five years." In addition to a two year program in civil engineering technology, he also sees the need for two year programs in sewage and water treatment plant operations, forestry, and data processing.

Greenfield Community

College has a two year degree program in Computer Science Technology.

How much can a graduate of a two year college make in a technical field? According to Pezzetti, the starting salary with the National Forest Service would be about \$6,200 with a potential of \$12,000. Salaries in small municipalities are not as large as those offered by the federal government, but Allen estimates that a two year graduate in a technical field could earn up to \$9,000.

Civil engineering technology students study mathematics, physics, engineering drawing, drafting, surveying, report writing, oral communication, statics, soil mechanics, contracts and specifications, the mechanics of materials, and computer programming. In addition, they may select a number of engineering and humanities electives.

Black is the son of Mr. and Mrs. Kenneth Black of 33 E. Cleveland St., Greenfield. Stone is the son of Mr. and Mrs. Niles E. Stone of 35 Main St., Northfield.

Applications for admission to the Civil Engineering Technology curriculum at Greenfield Community College are still being accepted. Interested persons should contact Donald Brown, Director of Admissions.

Student Help Sought For Committee

If you would like to take an active role in helping to make policies for the College, then consider working on one of the several student and faculty committees this year. These committees devise and recommend policies to President Turner. Such committees as academic standards, curriculum, community service, guest lecture, institutional research, long-range planning and performing arts have openings for students to take their place along with the faculty to devise new programs and policies.

If you are interested in the functions of these committees, look at this year's Student Handbook for committee descriptions or stop in at the Student Activities office to sign up for Student Government to approve you to the committee position.

WASHINGTON, D.C. — Young Americans lead the nation in viewing the Peace Corps and Peace Corps Volunteers as a positive force for "helping other people to help themselves". This conclusion comes from a recent Peace Corps national research survey conducted by Daniel Starch and Staff of Mamaroneck, New York.

The survey showed that a majority of young persons (18 to 24) consider people-to-people programs to be the Peace Corps' major contribution abroad (65 per cent of 18-to-24-year-olds vs 57 per cent for the total sample). Also, young Americans lead the way in holding a positive attitude about the Peace Corps (84 per cent of Americans 18-24 vs 78 per cent of the total sample) and in approving of Peace Corps Volunteers (96 per cent approval among those 18-24 vs. 86 per cent of the total sample).

Zitzhar Sahed, Israeli Tank Commander in 1948, eyes GCC Summerterm student Debbie Orr. They met on a field trip to the Jewish Museum in New York. The field trip was taken in connection with the Summerterm course, The Old Testament as Literature. The photo of Commander Sahed is part of a collection of photographs at the Museum. —GCC Photo.

From President Turner . . .

Greetings and best wishes to all as we open the 1971-72 academic year! I would like to express a special welcome to all new students and new faculty members who are joining us for the first time.

While the College continues to grow in number of students served and number of faculty and staff and in the financial support provided by the State we must continue to be concerned with the quality of the work done. Our mission here is to provide effective and efficient educational services to our clients. This means that we all must be actively involved in the process and hold high standards of accomplishment for the work we do. I urge students to become involved in their Student Government and some of the College committees. Each of the College committees appointed by the President should have three students who are interested in the work of the committee and who are dedicated to attending meetings and making significant contributions.

The College is involved in a people oriented business which requires that we be concerned with the quality of the experiences provided. Expertise in human relations, communications and group decision making processes need to be developed at all levels.

The coming year promises to be an exciting year and we should have some good times together.

Greenfield Town Clerk Announces Policy For 18-Year-Old Voters

Representatives of the League of Women Voters will be at the College on Tuesday, October 5, to encourage eighteen-year-olds to register to vote.

A controversial ruling by the Attorney General of Massachusetts, Robert H. Quinn, authorizes students to register to vote in the community in which they attend college rather than in the parental community.

Mrs. Josephine O'Connell, Greenfield Town Clerk, has reported that between January 1, 1971 and August 31, 1971 only 72 eighteen-year-olds have registered to vote in Greenfield—all local young people.

Mrs. O'Connell says that her policy will be to carefully screen out-of-town Greenfield Community College students who may ask to be registered to vote in Greenfield. She says she will ask them where they have their car registered

and if they intend to live in Greenfield beyond the nine months of the school year. Students who have their cars registered in a community other than Greenfield and who do not maintain a Greenfield residence longer than the nine months of the school year will presumably be invited to register to vote elsewhere.

The ruling of the Massachusetts Attorney General has created some confusion and concern in towns like Amherst which has a transient student population larger than the resident non-student population.

No cause celebre is likely in Greenfield — at least this fall — since the next elections are not until March, 1972 when there will be a local town election. Mrs. O'Connell says she plans to refer any problem cases to the Board of Registrars which is appointed by the Selectmen.

Vote a hawk out of office.

(The Choice Is Yours)

You make your opinions count and support the issues you believe in when you vote. Make sure you can. Register now at your Town or City Hall. Your vote does register.

18-20 year old voter registration.

UMass Transfer Applications Due Soon

Dates for transfer applications to the University of Massachusetts have been announced by Margaret A. Campbell, Director of Financial Aid and Placement.

For those planning to transfer to UMass in January, 1972 applications are due in Miss Campbell's office on Monday, October 18, 1971. For those going to UMass in September, 1972, the applications are due in Miss Campbell's office on Monday, February 14, 1972.

Miss Campbell says that she would like to interview every student who is applying to UMass. During September and October she would particularly like to see those students planning to transfer in January, 1972. Her office is located in the Main Building in the Dean of Students suite.

Work Study Meeting Soon

All students with Work Study assignments for this year must meet with Miss Margaret Campbell, Director of Financial Aid and Placement in the Main Building Auditorium on Tuesday, September 14 at 11 a.m.

Agenda--

(Continued From Page One)
Campus. 7 p.m. Three Films. 55 cents admission.

—Sept. 21: Tennis meeting Main 105 at 11 a.m. For varsity and intramural teams.

—Sept. 21: Drama Club meeting Main Auditorium at 11 a.m.

—Sept. 21: Golf meeting. West 112 at 11 a.m.

—Sept. 21: Film, Downtown Campus. "High School" by Fred Wiseman. 11 a.m. Free admission.

—Sept. 23: Intramural football meeting. West 112 at 11 a.m. Organizational meeting to choose captains and team schedules.

—Sept. 24: Film, "The Fox" with Sandy Dennis. Downtown Campus. Admission 55 cents. 7:30 p.m.

—Sept. 25: First event of the Outing Club of the fall. Climb Mt. Monadnock. Watch bulletin boards for further information or contact Mr. Gilmore. Dues payable through Student Activities Office.

—Sept. 25: First Fall Dance. Time and place to be announced by Social Committee.

—Sept. 30: Baseball meeting. West 112. 11 a.m. For candidates who are interested in playing varsity baseball in the spring.

—Students unable to make the aforementioned meetings or who want further information should contact the Student Activities Office in the West Building.

Evening Courses

P.M. 71-72, the Evening Division Program for this fall, begins on September 20th, Dr. Robert J. Welsh, Director, announced today.

Students enrolled in the Day Division may also enroll for courses in the Evening Division. The courses being offered in P.M. 71-72 during the fall semester are:

- BUS 155 Business Law I
- PSY 201 Psychology of Adjustment
- PSY 101 Principles of Psychology
- SPE 101 Oral Communication
- ART 151 Photography I
- MAT 112 Probability and Statistics
- * FST 105 Organization and Management of Fire Departments
- * LAW 113 Juvenile Procedures
- PSY 207 The Psychology of The Exceptional Child
- ENG 101 English Composition I
- POL 203 American Civil Liberties
- ACC 101 Introduction to Accounting I
- SOC 203 Sociology of The Family
- MAT 103 Technical Mathematics I
- FST 111 Building Construction
- SPE 121 Group Discussion
- ENG 112 English Composition II
- HIS 101 Western Civilization I
- BUS 201 Introduction to Finance
- BUS 205 Federal Income Tax Procedures
- AVM 103 Production of Audiovisual Materials
- INT 103 Topics of Physical Science
- PHY 105 Physics for People
- * FST 105 Organization and Management of Fire Department
- MAT 101 Fundamental Concepts of Mathematics
- SOC 101 Principles of Sociology
- COM 105 Fortran Programming
- BUS 103 Introduction to Marketing
- PHI 105 Ethics: The New Morality
- ENG 217 American Folklore

Catalogs for P.M. 71-72 may be obtained in the office of the Dean of Faculty.

(* To be held in Northampton.)
